

Government co-contributions

Boost your super by up to \$500

If your total income* is less than \$54,837 (2020/21) a year and you make after-tax contributions to your super, you may qualify for a tax-free super top up from the government. These top-ups to Australian workers are called co-contributions, and you can benefit from them every year as long as you qualify.

50% return

If you qualify, for every \$1 you put into super, the government will chip in another \$0.50, up to \$500. You can do this easily by setting up a direct debit or BPAY into your super. If you contribute \$1,000 each year into super (that's \$39 a fortnight), you could have \$1,500 in super after one financial year.

BPAY your contribution

Vision Super Saver members can use the biller code and reference number below to make contributions to your super account:

- ▶ Biller code: 16618
- ▶ Reference: 1859 + your member number

The above biller code and reference number is only for Vision Super Saver members making a post-tax contribution. If you are not a Vision Super Saver member, call us on **1300 300 820** or refer to our Member BPAY and direct debit guide (fact sheet 50).

Government co-contributions example

Sarah is 45 years old and works as a child care worker earning \$32,000 per year. She makes a \$1,000 post-tax contribution to her Vision Super account. **On lodging her tax return, the ATO will make an additional co-contribution of \$500 to her Vision Super account.**

Sarah does not need to do anything except make the contribution and lodge her tax return. The ATO and Vision Super take care of the rest.
